

## CHAPTER IV

### RESULT AND DISCUSSION OF RESEARCH

This chapter specifically deal with the result of research and discussion of research. The data that obtained from The Perceptions of English Education People at Kamoning Sampang Toward English Department IAIN Madura. Then, the researcher also presents about the discussion in which it is based on the result of this research.

#### 1. Presenting Data

##### a. Background of Kamoning Sampang

Kamoning Sampang is one of village in Sampang district east Java. Based on the investment held at Kamoning Sampang from Augst 31<sup>th</sup> 2019 until Sept 19<sup>th</sup> 2019 the researcher got all the data, because the researcher became one of the residents in the village. So the researcher went to the home of the speakers consisting of stakeholders and alumni of TBI at IAIN Madura and also the other people that graduate from English department but differen campus or university.

Then the researcher asked the speakers for the time and explained the purpose of the reseracher's arrival to their house, which was to interview them that related with the English department where the speakers knew and even had taken his education at the university by choosing the English department.

**b. The Location of Kamoning Sampang**

The location of Kamoning is village Sampang regency, this village is approximately 3 km from city towards th north Sampang. Here the researcher was conducted the research about English department at IAIN Madura.

**c. The English Education People at Kamoning Sampang**

Every person has a different education, starting from only studying in elementary school and college. Generally, people who take tertiary education both native and newcomers who live in this kamoning area, various kinds of majors they choose are English, Islamic religious education, and also economics and management of education on campuses on various campuses.

But among the majors they chose, most of them chose English majors both at the IAIN Madura campus and at other campuses. Because they have different views, this is where the researchers want to find out their perceptions of the English department and how their expectations of the English department are so they choose the department at the college level.

**d. The profesion of English Education People at Kamoning Sampang**

Professionals are positions desired by everyone, but various kinds of professions are desirable such as teachers, employers, leaders,

and others. But there are also things that do not match what they want with what they get.

Some of the people or alumni from the English department at kamoning Sampang have a profession as educators or are referred to as teachers. But there are also those who become employees and some even become principals, as well as the leaders of institutions based on their abilities and also their efforts.

Therefore the researchers here want to know their perceptions based on the profession they get.

#### **e. The profil of English department at IAIN Madura**

In every department that is found in various campuses or universities, of course it has a profile of that department. The profile consists of the vision, mission, and objectives of the department. As in this discussion about the profile of the English department at IAIN Madura, because this research is related to the English department that has been known by the informants namely alumni from the English department at IAIN Madura and also people who have a basis or alumni from the English department as well even from the university different, but still within the scope of the English department.

The first about the profil of English department at IAIN Madura they are; The English Teaching Learning Program is as an English subject teacher at Madrasah and Schools (RA / TK, MI / SD, MTs / SMP, MA / SMA, MAK / SMK) who have good personality, are

knowledgeable and up-to-date in their fields of duty and responsibility based on Islamic ethics, science and profession).<sup>1</sup> The second is the vision of the English study program is making English teaching-learning program as a prophetic education center in producing religious and competitive English language educators in ASEAN in 2019.

The English mission study program is as follows: 1) Conducting quality teaching and learning in the field of English education, 2) Conducting research in the field of English education, 3) Conducting community service in the field of English Education, 4) Conducting the human resource department development in improving the competence of English teaching and learning, 5) Conducting cooperation with relevant institution.

The objectives of the English learning program are as follows; 1) Producing the professional English Teacher and Islamic characters at Madrasah and Schools, 2) Producing the English research excelling at Madrasah and Schools, 3) Producing the community service program in the field of English Education, 4) Producing competitive human resources departments in English teaching and learning, 5) Producing cooperation with a relevant institution and sustainable.<sup>2</sup>

Therefore the researcher wants to know about their perceptions and also hopes that the English department has been known about their profile and accreditation.
