

CURICULUM VITAE

Hi, my name is maisaroh, usually my friends call me Memey, usually my family calls me "Mey" and my friends at the pare tutoring center call me Rere. I am an active and cute woman. Why do I say cute because my height is 150 and my weight is 50.

I was born to a romantic couple named MOH RAWI and KARIMAH, both of which I really love and love, nothing is more valuable than both. And I was born in a beautiful and clean village called kembang, Palengaan sub-district, Pamekasan district. I feel lonely because I do not have siblings or can be said to be an only child.

My first education was taken at TK Miftahul Ulum Sumberembang, my primary school was taken at SDN Palengaan Daya 2, and my madrasah ibtidaiyah was taken at Miftahul Ulum Sumber kembang, and SMP was taken at SMP Al-Amien Preduan which is modern and advanced that, and of course very disciplined and advanced. And my high school went to Al-Amien Preduan which was my best version.

When I was a student I was active in the field of the HMI branch of Pamekasan, the IAIN Madura commissariat tarbiyah since 2017 - until now. As for my work experience, I have worked at the Kompas Research and Development Center for every election.
