

## **CHAPTER IV**

### **RESULT AND DISCUSSION OF RESEARCH**

In this chapter, the researcher going to present the result and discussion of the data obtaining from research of the use of SGT “Smile Got Talent” of students self-Confidence in learning English et Smile Holiday English Supercamp (SHES) of Bidorong Pakong Pamekasan.

#### **A. Result**

##### **1. History of Smile Holiday English Suprcamp (SHES)**

Smile Holiday English Suprcamp (SHES) is a course located in Bidorong Pakong Pamekasan. Which is intended for students who are on vacation from college, and a special student program is held which has been running for 3 consecutive years. It was carried out during the student's long vacation by being held incidentally because the management was not solid.

Activities at SHES last for 15 days, some for 20 days and all members stay or spend the night in the dormitories that have been provided. The material provided is adjusted to the ability of the members, there is level 1 speech therapy and level 2 speech therapy. Level 1 speech therapy is for students who are non-English or don't know much English and usually for students who study English or are already familiar with the language. English is given level 2 speaking therapy, level 2 speaking therapy is already focused on how to launch student spiking, so the material provided

is enrichment that focuses on speaking and writing, while the teacher for level 2 speaking therapy is Mr. Abd Wafi and for level 1 it is aimed at the accompanying tutors that have been provided. The point of focus on speech therapy is how to make us able to communicate smoothly and correctly. Why does be smooth first because smooth is important if it's not smooth it will make our speaking messy.

And usually in every month of Ramadan there is a Smile Ramadhan English Suprcamp (SRES) here, which is focused on santri during the santri holidays and it is carried out during the fasting month of about 15 and 20 days. Members who take part in SRES are usually students and the general public, but those who are non-English or do not know English. And the material given, there is speaking therapy level 1, grammar, pronunciation and listening. And for SHES, the focus is on enriching how to be a good and right speaker in the public, how to become a really chatty and fluent English speaker.

## 2. Profile of Smile Holiday English Suprcamp (SHES)

Name of institution: Smile -The Cramp English Course and Training, was established on August 17, 2009 in Malang City. The name of the founder Abdul Wafi, S.S., M.Pd.

Visi: To become a superior and unique language training and development center. Misi: (1) organize creative, innovative, effective, efficient and fun learning processes (2) Appreciate and develop each unique

potential of students (3) collaborate with various institutions to provide services that are beneficial for the advancement of community and state education.

Purpose: (a) organize training and education to improve English language competence (b) organize trainings to develop English language talents (c) organize tests or exams in English (d) provide editing and translation services from English to other languages and vice versa.

Type of program: (1). SRES (Smile Ramadhan English Supercamp) is held every fasting month (20 days) with a special dormitory system for students who are on boarding school holidays (2) SHES (Smile Holiday English Supercamp) is held every campus holiday with a dormitory system for 15-20 days specifically for students who is on campus vacation (3) STOEFL Prep (Smile TOEFL Preparation) specifically for the public who want to have preparation to take the TOEFL test (4) SEW (Smile English Writing Class-- specifically for the general public who want to be able to write English in general or scientifically (5) SET (Smile English Translation Class) specifically for the general public who want to be able to translate English into other languages LEADING PROGRAM and Characteristics: English Speaking Therapy MUI Version

Struktur: Director: Abdul Wafi, S.S., M.Pd. Manager: Ansharul Fuqaha', M.Pd. Treasurer: Isti'anah, S.S.

## **B. Findings of research**

In this chapter the researcher will present the research findings after the theoretical studies that have been described in the previous chapter, the exposure and findings of this research will be compared with findings that already exist in the field from observations such as observations, interviews, documentation and also exposure to data from these findings. Will be directed so that it can be the answer to the thesis title “The Use of SGT “Smile Got talent” of Students Self Confidence in Learning English at Smile Holiday English Suprcamp (SHES) of Bidorong Pakong Pamekasan.”

As has been formulated in the focus of the research to simplify the discussion in this study, the exposure of the result data found in this study, then the exposure of the result data found in this study will be presented in the form of the main discussion as follows:

**1. How does the teacher use SGT "Smile Got talent" in learning English at Smile Holiday English Suprcamp (SHES) Of Bidorong Pakong Pamekasan?**

Teacher use of SGT in learning English at Smile Holiday English Suprcamp SHES Bidorong Pakong Pamekasan, is one of the learning strategies that can help increase students' confidence in learning specifically learning English. By using SGT, besides being able to increase students' self-confidence, it can also help students in launching spiking,

pronunciation and also sharpening students' hidden abilities. By using SGT Smile Got talent, it can help improve students' skills in learning specifically to learn English.

Teachers use SGT to increase students' confidence in learning English, which is a program which is carried out twice a week. Before entering the SGT program, the tutor asks members to prepare in advance what will be displayed at the event later. Tutors usually notify one day before the SGT program starts. There are many events held in SGT including: Speech, poetry, singing, stand-up comedy, story-telling. Reading the holy verses of the Koran, Sholawat and advertisements.

One day before the SGT program is held, the tutor chooses the members who will appear, chooses who will be the dynamizer, MC, and other events. For dynamists and regular MCs who guide the event, the Tutor usually appoints a maximum of 2 members and the appointed members are usually active and can control one room. And also the Tutor chooses who will read the verses of the holy Al-Quran and Sholawat to the Prophet Muhammad SAW. Usually the chosen member has a very good voice.

For poetry, tutors usually leave it to any member who will perform by choosing a theme and text that is available and has a good surrounding. Likewise with singing, the tutor usually doesn't choose who will perform

but leaves everything to the members. With that, members will choose what songs will be displayed on SGT later.

Speech, usually the tutor appoints one of the members who will appear at the SGT later, usually the tutor gives instructions on how to make the member speak well and fluently without having to rely on the text. The tutor asks members to choose their own speech theme so that later it will not be difficult for them to deliver their speech in front. Most members are confused about what will be displayed at SGT later, but thanks to the help and direction of the tutor little by little the members are able and confident in showing their abilities with the skills they have even though they appear without the speech text.

Storytelling, usually the tutor asks all members to participate in the event, and asks him to prepare any stories that can be quickly understood without relying on the text. Because if it is still based on the text, it will be difficult for students to understand what else to memorize the text. So the tutor asks members to choose a story that other members can quickly understand. And also the tutor asks what tools are needed in the story. Hope the members can display that talent well.

The next event is a stand up comedy, usually the tutor chooses several members to demonstrate something by imitating the movements or styles

of people and even animals, this is intended so that everyone who participates can be entertained by the event. And usually at every change of event from one event to another, there is such a thing as an advertisement for a product, either food or other products. The goal is that in the turn of events there is no empty time.

From these several events, the Tutor asked all members of SHES to prepare as well as possible because at the end of the SGT the Founder of SHES Bicolorong Pakong Mr. Abdul Wafi gave a review and input to the members so that the next SGT will be better than before.

And finally they are confidence enough in public speaking so the core is improving they are confidence and giving providing students to show they public speaking. And another's strategy is that focuses on fluence so incurred the students to show they are English by focus on being fluence and fluence so all they have Mastic in grammar or in vocabulary but the main point they are fluence so in the talent they are brave enough they confident enough to show they talent so even though they have Mastic when they show the talent so I think it's a good strategy how to improve the students confidants.

## **2. What are the benefits of SGT "Smile Got Talent" of Students Self Confidence in Learning English at "Smile Holiday English SuperCamp" (SHES) of Bidorong Pakong Pamekasan?**

Next, the researcher will explain about the benefits of SGT "smile got talent" for confident students in learning English at Smile Holiday English Suprcamp (SHES) Bidorong Pakong Pamekasan:

Regarding the benefits of SGT Smile Got Talent in increasing students' confidence in learning English, it is very good, because with SGT students can improve their English skills both in terms of spiking pronunciation and vocabulary. SGT is also a program in which we are trained to be confident in doing something, confident in showing our talents, and not ashamed if we appear publicly. Based on the results of interview whit the founder of SHES Bidorong Pakong Pamekasan. Mr Abdul Wafi, he said the following:<sup>1</sup>

*“Impact of SGT in increasing students' self-confidence is that students are motivated to be confident in themselves with their potential and talents, they can develop their talents. At first they are hesitant to show their talent, because lack of motivation and lack of self-confidence can cause them not to believe that they have potential. Therefore, the director of SHES provides motivation, encouragement and motivational stories so that they can believe that they can develop their talents. In addition, the biggest impact of SGT is that they can increase students' spiking in public and can*

---

<sup>1</sup> Abdul Wafi, Founder of SHES, online interview, on February 20, 2022, 20-51, WIB.

*also improve their understanding of English and they will be in solidarity with other members.”*

SGT “Smile Got Talent” is a program for the students to show their ability, to show their talent in English and having this frequently so students will increase their confidence, will increase their talent, will increase their English proficiency well. Smile Got Talent is full of English talent, such as a speech, English toying, role play, drama and demonstration. And also in Smile Got Talent students can perform their English I mean what they have learned in the classroom and they can practice what they have learned in the classroom in the SGT so and we conduct the SGT show at least twice a week even more sometimes four in a week by having that SGT more and more so the students will get more opportunity to show and improve their English talent.

Miss Imroatul one of the Tutors at SHES Bicolorong Pakong Pamekasan explained:<sup>2</sup>

*“The benefits of SGT “Smile Got Talent” of student self confidence in learning English is To develop members ability and creativity based on their potential, talents, and interest. To develop a sense of social responsibility of members. To create a relaxed, uplifting, and fun for members who support the development process. To develop the readiness the members when they face the reality. And then the impact of SGT is it really influence the success of learning, it influence person’s personally, and it build a courage and independence. This event contains performances by members who have talent in any field. The main purpose of this event is to develop students' talents and create a sense of self-confidence. It caused*

---

<sup>2</sup> Imroatu, Tutor, online interview, on February 20, 2022, 20-51, WIB.

*many members are afraid to speak before trying. Some members perform melodious voices through songs, others through dance, skill in playing musical instruments, magic, poetry musicals, musical dramas to story-telling and comedy (stand up). One thing that should be remembered that the purpose is just to practise their self-Confidence.”*

There are many reasons why members don't believe in their talent, the causes include members' concerns about showing their talents due to lack of confidence, also worrying about making mistakes, and also lack of confidence that they can do and always feel defeated before they try. And also they do not believe in the advantages they have. With this, SGT Smile Got Talent has a huge impact on members including creating a member's enthusiasm for learning, developing creativity, talent and student potential in learning, motivating students to be confident, increasing the courage of members in showing their talents and also creating good solidarity between members.

Siman, one of the members who studied at SHES Bicolorong Pakong Pamekasan explained;<sup>3</sup>

*“SGT is a program held at SHES Bicolorong Pakong Pamekasan, where at SGT there are several events including story-telling, drama, stand-up comedy, singing and so on, as for the benefits of SGT in increasing students' confidence in learning English for the first time, train students' confidence, the second is to train students' skills in speaking English. And also SGT has a positive impact in improving the quality of learning English both in terms of spiking pronunciation vocabulary and grammar”.*

---

<sup>3</sup> Siman, member, interview, on February 21, 2022, 11-43, WIB.

Ahmad Fauzi is also a member of SHES Bicolorong Pakong Pamekasan said;<sup>4</sup>

*SGT is a program held by SMiLE English Course. This program is made to test the ability of students English Skill. SGT is held once in a week in a program. The benefits of SGT, it can enhance Students English ability, especially in speaking skill because the program consists of some event like singing, reading poem, public speaking, drama, role playing. And than SGT can increase my speaking ability and my confidence. It is very fruitful. And I will speak English on and on to exercise my speaking ability. By the existence of SGT, it will be one of the ways to increase my confidence in English. The evaluation in learning is one of ways to repair and build the confidence as as well.*

Following are the results of an interview from one of the members of SHES Bicolorong Pakong Pamekasan, they explain that the benefits of SGT are to develop the abilities and creativity of members based on their potential, talents, and interests. Develop a sense of social responsibility of members. Creating a relaxed, uplifting, and fun atmosphere for members that supports the development process. Develop member readiness to face reality. And there are many benefits of SGT in increasing the enthusiasm of members in learning. Improving members' speaking skills and also improving members' skills in showing their talents and potential so that they can be confident and not insecure in showing their talents, because students often feel ashamed and insecure because they are afraid of not being the same as other members. Therefore, SGT facilitates members to believe and not hesitate or insecure in showing their talents.

---

<sup>4</sup> Ahmad Fauzi , Member, online interview, on February 21, 2022, 18-41, WIB.

Anis Fitriyah as a member who has studied at SHES Bicolorong Pakong Pamekasan added;<sup>5</sup>

*SGT is one of programs at SHES which show the talent from each member. And than the benefits of SGT is can show member's talent, can think creatively, can improve the ability. But sometimes I'm afraid because I don't have confident and I am afraid the listener lough at me. But I believe myself if I can do it and I Make more confident than before.*

It has been explained by several members that sometimes they hesitate and are afraid to show their talents because they don't believe that they can do it. And always think negatively about themselves, always feel afraid of being wrong and afraid of being laughed at by other members. And give up before trying it. Therefore, with SGT students can show their talents and can think creatively to improve their abilities. Nur Aini member of SHES Bicolorong Pakong Pamekasan added;<sup>6</sup>

*SGT forgot a program from SHES Bicolorong Pakong Pamekasan which was held twice a week which included performances in the form of story-talling, drama, singing, poetry reading, stand-Up comedy, speech and role playing. The benefit of SGT is that it can increase self-confidence, which was initially insecure, insecure, and did not dare to appear in public to become confident. And what makes me feel inferior to show my talent because I think my friends are smarter, more beautiful than me, therefore I am insecure, and my efforts are so that I can be confident I try to learn and try not to feel inferior and I try to approach other members smarter to learn*

---

5 Anis Fitriyah, Member, online interview, on February 19, 2022, 10-12, WIB.

6 Nur Aini, Member, interview, on February 21, 2022, 16-37, WIB.

*together. And the impact can increase spiking, and what I couldn't sing in English before now has started to be able to.*

From the explanations above, it is clear that SGT has a positive impact on members in terms of spiking, pronunciation, vocabulary and English singing ability. And it can also train the spinning of students who initially can't become able because they can if they get used to it. And can change the mindset of students who always feel not the same as other members. It can also help increase the enthusiasm of members in learning. And motivate members to be confident.

### **C. Discussion**

#### **1. How does the teacher use SGT "Smile Got talent" in learning English at Smile Holiday English Suprcamp (SHES) Of Bidorong Pakong Pamekasan?**

SGT is one of the programs held at Smile Holiday English Suprcamp (SHES) Bidorong Pakong Pamekasan, which is held twice a week. SGT is a medium for members to show their talents and abilities, such as singing, speech, story-telling, stand-up comedy, poetry, drama, role play and etc. The program was held in order to increase students' confidence in learning and also to develop their talents, improve English language skills well because SGT has a positive impact on improving the quality of student

learning. From the research findings above, it has been explained that the teacher's strategy in increasing students' learning potential and increasing students' self-confidence is to use SGT because SGT is a program that can help increase self-confidence, train students' speaking, and develop students' talents and abilities. There are many strategies carried out by a teacher so that students can master the lessons that have been determined, as in the Smile Holiday English Suprcamp (SHES), the teacher makes the SGT program so that students are more active, more confident, and not shy. Thus the strategy that SHES provides to members who are studying is very good in improving the quality of student learning, starting from speaking more fluently, pronunciation is good, vocabulary increases and also listening is good.

According to Halim Simatupang; There are four basic strategies in learning 1. Identifying and setting indicators of changes in the behavior and personality of students as expected by strategy 2. Choosing a teaching and learning approach based on the material 3. Selecting and establishing teaching and learning procedures, methods, and techniques that are considered the most appropriate and effective so that it can be used as a guide for teachers in carrying out their teaching activities. 4. Establish minimum learning criteria (KBM) so that they can be used as guidelines by

teachers in evaluating the results of teaching and learning activities which will then be used as feedback for improving learning tools.<sup>7</sup>

This is because in teaching and learning activities, learning strategies are a required component, this aims to further improve the quality of students towards the formation of reliable and capable humans. Of course, to achieve this goal, the benefits of learning strategies must be known.

According to Mr. Abdul Wafi as founder of SHES said SGT is a strategy that focuses on fluency so as to make students show that they can speak English well with a focus on fluency and fluency so that when they have Mastic in grammar or vocabulary but their main point is eloquence, then in talent they are brave enough, they are confident enough, to show the talent they have even though they have enough Mastic they show the talent.<sup>8</sup>

According to Miss Imroatul as a tutor at SHES, we explained that SGT is an event that contains performances by members who have talents in any field. Such as stand-up comedy, speech, story-telling, singing and etc. The

<sup>8</sup> Abdul Wafi, faunder, online interview, on February 20, 2022, 11-49, WIB.

main purpose of this event is to develop students' talents and foster self-confidence.<sup>9</sup>

It is clear that SGT is a program that can increase students' talents and interests, it can also help improve the quality of student learning and foster student enthusiasm in developing students' qualities and talents in learning, both in terms of speaking, pronunciation, vocabulary and listening.

**2. What are the benefits of SGT "Smile Got Talent" of Students Self Confidence in Learning English at "Smile Holiday English SuperCamp" (SHES) of Bidorong Pakong Pamekasan?**

There are many benefits of SGT in increasing students' confidence in learning English including; students who were initially insecure in showing their talents because there was an SGT program, students started to be confident, who were initially hesitant in showing their abilities to become confident, who were initially afraid of being wrong to appear finally brave. There are many benefits of SGT for students.

Miss Imroatul said there are many benefits of SGT including; 1. To develop members' abilities and creativity based on their potential, talents, and interests, 2. To develop a sense of social responsiveness of members,

---

<sup>9</sup> Imroatul, Tutor, online interview, on February 21, 2022, 21-09, WIB.

3. To create a relaxed, uplifting, and fun for members who support the development process and, 4. To develop the readiness of the members when they face the reality.<sup>10</sup>

It has been explained in many research findings that there are many benefits of SGT in addition to growing students' self-confidence, students' enthusiasm for learning is also to train students' fluency in speaking English because fluency and fluency in speaking English are very important. Also, to train students' pronunciation so that their speaking is better, they also increase their vocabulary and often listen to songs with English romance. The goal is to train students' skills in learning English.

According to Ach Fauzi as a member who has studied at SHES Bicolorong Pakong Pamekasan said that, the benefits of SGT for members, can improve students' English skills, especially in English speaking skills because the program consists of several events such as singing, reading poetry, speaking in public, drama, role playing story-telling and etc. And then SGT can improve members' speaking ability and self-confidence which makes this very useful.<sup>11</sup>

---

<sup>10</sup> Imroatul, Tutor, online interview, on February 21, 2022, 21-09, WIB.

<sup>11</sup> Ahmad Fauzi, Member, online interview, on February 21, 2022, 18-41, WIB.

Anis Fitriyah said, the benefits of SGT for students are that it can show hidden talents and abilities of members, students can think creatively, can improve students' abilities, train students' spinning, and make students more confident than before.<sup>12</sup>

With this SGT has an impact and benefit in developing students' talents and abilities, with SGT students will be more confident in showing their talents, and not be insecure about their potential. SGT is also a place where students will be more active and effective in learning, and can increase students' potential and confidence in learning. SGT can also improve students' skills in speaking English fluently and fluently, improve sloppy pronunciation, and increase vocabulary, as well as improve students' listening legitimation and motivate students to always be enthusiastic about learning.
