

CHAPTER IV

RESULT AND DISCUSSION OF RESEARCH

This chapter present the result and discussion of research. The data collected from the observations and documentation which are discussed based on the theory and concept from the previous chapter. This chapter is presented based on the research problem stated in the first chapter. It covers the analysis of Indonesian – English code mixing on the name of dress product in online shop “Shopee”. The result and the discussion are:

A. The result of research

The researcher will present and report the finding that has been gained from observation and documentation about Indonesian – English code mixing on the name of dress product in online shop “Shopee”. The researcher will analyze about it. The researcher start the research on 26th October 2019 until 21th January 2020. The last step the writer will present what are the purposes of those data. These are conducting this study as valid data to answer the problems that becomes focuses on this research. Those are as follows:

1. Kinds of Indonesian – English code mixing on the name of dress product in online shop “Shopee”.

The researcher uses observation and documentation to get the data and answer the problem. Suandi classified code mixing into three types. They are inner code mixing, outer code mixing and hybrid code mixing.⁴⁹

⁴⁹ I Nengah Suandi, *Sosiolinguistik* (Yogyakarta: Graha Ilmu, 2014), 140.

a. Inner code mixing

For this type, there is no code mixing because the researcher focuses on english – Indonesian code mixing. While this type absorb native language.

b. Outer code mixing
