Keywords: Strategy, Memorization, Al-Qur'an

Al-Qur'an which is a guide for Muslims, it is very important to maintain it. One way is by memorizing. There needs to be a learning strategy in memorizing it so that it is easier, more effective and efficient.

Based on this, there are three problems that are the main study in this study, namely: first, how is the implementation of memorizing the Koran, second, what are the supporting and inhibiting factors for memorizing the Koran, third, what is the success rate of memorizing the Koran? 'an.

This study used a qualitative approach with comparative research, data sources were obtained through interviews, observation, and documentation, the information was caregivers, tahfidz heads, tahfidz teachers and students, while checking the validity of the data was carried out by transferability, dependability, and konfirbality.

The results of this study indicate that: first, the implementation of learning tahfidz al-Qur'an at the Baitil Qur'an Al-Ghazali Islamic Boarding School, namely every day except Tuesday and Friday nights. Add memorization of at least 1 glass, re-store memorization of at least 2 half-glasses, memorize from juz 30, deposit reciting surahs, pages, verses, madaniyah or makkiyah, deposit memorization cards and violations, memorize 1 juz, re-deposit and test. 5 juz are recited at students' homes and graduated, students who violate are punished, more muroja'ah, target 1 year minimum memorize 5 juz. As well as the methods, namely the wahdah, muroja'ah and test methods while at Pondok Kecil Al-Hamidy Banyuanyar there is no target of memorizing, it is required to pass amsilati (yellow book reading program), makhorijul letters and tajwid, memorize from juz 30, use al-Qur'an utsmani, memorize 1 juz muroja'ah focus, before depositing read in front of the teacher, 5 juz ditasmi' and test, students who violate are punished, the method is the wahdah method, muroja'ah and test. Second, the supporting factors at the Baitil Qur'an Al-Ghazali Islamic Boarding School are the community, guardians of students, hafiz teachers 30 chapters, hafiz caregivers 30 chapters. While the inhibiting factors are not being particular, friends, their memorization catches up with others, students are lazy and bored. At Pondok Kecil Al-Hamidy Banyuanyar the supporters are the spirit of students, parents, hafiz teachers 30 chapters. While the obstacle is the environment of the hut which does not have the atmosphere of the Koran. Third, the success rate of learning tahfidz al-Qur'an at the Baitil Qur'an Al-Ghazali Islamic Boarding School, namely students being fluent, active in worship, istiqomah program. Whereas in the Pondok Kecil Al-Hamidy Banyuanyar, the program is consistent, the reading is fluent, the memorization is fluent and the students' morals are good.
