

## ABSTRACT

Qonita Dewi Fakhira Balqis, 2023, The Effect of Affective Filter Hypothesis by Krashen in Teaching Students Speaking Skill at the Ninth Grade of MTsN 3 Pamekasan, Thesis, English Teaching Learning Program (TBI), Tarbiyah Faculty, State of Islamic Institute of Madura, Advisor : Dr. Mulyadi, SS., M.Pd.

Key words : Speaking, Affective Filter Hypothesis

A foreign language is a new language learned by a person that is not commonly used by most people in their city. This is because second and third languages are not acquired naturally or are not used in everyday life. This study aimed to know the students motivation, anxiety, and self confidence in speaking skill at the ninth grade of MTsN 3 Pamekasan after getting affective filter hypothesis treatment. to know the students anxiety in speaking skill at the ninth grade of MTsN 3 Pamekasan after getting affective filter hypothesis treatment. to know the students self confidence in speaking skill at the ninth grade of MTsN 3 Pamekasan after getting affective filter hypothesis treatment. The research design of this research is quantitative approach, where the data was analyzed by using statistical procedures and the result of the data will be represented in a numerical data and statistical process. This research use quasi experimental design. The research design uses a nonequivalent pretest-posttest control group research design. The problem is whether the ninth grade students of MTsN 3 Pamekasan have better motivation, self confidence, and low anxiety after the affective filter hypothesis treatment on speaking skill. The form of the test is a Likert scale tick question, namely 4 = strongly agree, 3 = agree, 2 = disagree, 1 = strongly disagree consisting of 18, with each indicator (self confidence, motivation, anxiety) totalling 6 questions related to the affective filter hypothesis. In this study, researchers provided treatment by trying to suppress anxiety, increase and boost the self confidence and motivation. As a result, researchers found an increase in the results of the experimental class after receiving affective filter hypothesis treatment.

## ABSTRAK

Qonita Dewi Fakhira Balqis, 2023, The Effect of Affective Filter Hypothesis by Krashen in Teaching Students Speaking Skill at the Ninth Grade of MTsN 3 Pamekasan, Thesis, Tadris Bahasa Inggris, Fakultas Tarbiyah, IAIN Madura, Dosen Pembimbing : Dr. Mulyadi, SS., M.Pd.

Kata Kunci: Berbicara, Affective Filter Hypothesis

Bahasa asing adalah bahasa baru yang dipelajari oleh seseorang yang tidak umum digunakan oleh kebanyakan orang di kota mereka. Hal ini dikarenakan bahasa kedua dan ketiga tidak diperoleh secara alamiah atau tidak digunakan dalam kehidupan sehari-hari. Penelitian ini bertujuan untuk mengetahui motivasi, kecemasan, dan kepercayaan diri siswa dalam keterampilan berbicara di kelas sembilan MTsN 3 Pamekasan setelah mendapatkan perlakuan hipotesis filter afektif. Untuk mengetahui kecemasan siswa dalam keterampilan berbicara di kelas sembilan MTsN 3 Pamekasan setelah mendapatkan perlakuan hipotesis filter afektif. Untuk mengetahui kepercayaan diri siswa dalam keterampilan berbicara di kelas sembilan MTsN 3 Pamekasan setelah mendapatkan perlakuan hipotesis filter afektif. Desain penelitian dari penelitian ini adalah pendekatan kuantitatif, dimana data dianalisis dengan menggunakan prosedur statistik dan hasil dari data tersebut akan direpresentasikan dalam bentuk data numerik dan proses statistik. Penelitian ini menggunakan desain penelitian quasi eksperimental. Desain penelitian ini menggunakan desain penelitian nonequivalent pretest-posttest control group design. Masalahnya adalah apakah siswa kelas sembilan MTsN 3 Pamekasan memiliki motivasi, kepercayaan diri, dan kecemasan yang lebih baik setelah perlakuan hipotesis filter afektif pada keterampilan berbicara. Bentuk tes berupa pertanyaan centang skala Likert, yaitu 4 = sangat setuju, 3 = setuju, 2 = tidak setuju, 1 = sangat tidak setuju yang terdiri dari 18, dengan masing-masing indikator (kepercayaan diri, motivasi, kecemasan) berjumlah 6 pertanyaan yang berkaitan dengan hipotesis filter afektif.
