

CHAPTER IV

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusions and the suggestions dealing with the research that was conducted. The conclusion in this chapter is related to the results of research that has been conducted regarding the types of bullying and also the impacts of bullying on victims in the movie “Wonder” based on the perspective of Coloroso. While the suggestions in this chapter will be addressed to several parties who may need this research.

A. Conclusion

After answering the research focus by collecting and analyzing data, the researcher can conclude:

1. There are three types of bullying found in the movie “Wonder”.
The first type of bullying is “verbal bullying” which consists of six forms of bullying against victims, namely nicknames, reproaches, cruel criticism, terror, intimidating letters, and the last is gossip.
The second type of bullying is “physical bullying” which only consists of one form of bullying against the victim, namely hitting.
And the last type of bullying is “relational bullying” which consists of two forms of bullying, namely aggressive/eye glances and mocking laughter.
2. The impacts of bullying experienced by victims in the movie “Wonder”, there are five impacts caused by acts of bullying on

victims. These impacts include worry, feel lonely, inferiority, social withdrawal and the last one is changes in behavior.

B. Suggestion

Based on the results and discussion of the research, the researcher would like to give suggestions to several parties as follows:

1. Students

Students are expected to be able to cope with bullying even better so that they are able to reduce and prevent bullying that occurs in the environment, especially in schools which are places where bullying often occurs.

2. Parents

In this case, parents are expected to help the child who is being bullied. On the other hand, parents of bullies are expected to be able to deal with this problem wisely and decisively and can educate their children to be even better.

3. Teacher

In this case, the teacher is expected to be able to deal with this problem properly and firmly towards students who are involved in acts of bullying whether they are bullies, bystanders, or victims of the bullying itself. That way, acts of bullying that occur in schools can be reduced and become even better.
